MANY WITHDRAWALS AT GRAVESEND.

BETTING LIGHT AND BOOKMAKERS GRUMBLING -GRAMPIAN SURPRISES THE SPECTATORS. A long list of scratches at Gravesend yesterday reduced the fields to scanty size. The total number of starters in the six races was twenty-four, an average of four to a race. This caused extremely light betting and bitter complaints from the bookmakers, some of whom in the first three races did not offer odds at all, but looked on idly. All but Kentigerna and Potentate were taken out of the first race. The two ran head and head

second race, Rudolph had only Stockton and Fidelio to beat. He ran under a pull the entire distance, winning by a head, Irving purposely drawing the that caused great excitement among racegoers. lighter was the public favorite for the race, and the second to the race of the finish fine. Fidelio was second, twenty lengths be-fore Stockton. Why was Stockton started? To fool of persons who only attend the race, and thousands of persons who only attend the race, when the star at-

The third race was another one-sided affair, Sirocco, Annie Bishop and Hiram being the only starters. Sirocco, of course, was a prohibitive favorite, while Hiram was wholly without friends. Sirocco led all the way, and won in a gallop by four lengths, Annie Bishop second, eight lengths before Hiram. Why was Hiram started? To fool the

A handicap for three-year-olds came next and this furnished some fair betting and a lively race. Prince George carried the highest weight, 122 pounds, and few heavy speculators thought him capable of carrying this impost to victory. Char-mion was the favorite at 8 to 5. At the finish Prince George had things all his own way, winning easily by a length. Herald second, a head before Coquette, on whom Carter waited a trifle too long

The fifth race was for maiden two-year-olds, and it presented the surprise of the meeting. Gram-plan, who was backed down from 100 to 40 to 1. leading throughout the journey and winning by a scant length from Gordius, who was a 2 to 5 favor-ite. Big Mid, another of the outside division, was third, only beaten a head by Gordius. The judges up Irving, who had ridden Gordius cautioned him in regard to foul riding. The Mamie B. filly was badly interfered with at the clubhouse turn, and the judges blamed Irving for this.

hael was at first the favorite for the sixth race, but at post time his price had gone back to trainer, . 7 to 2. The Ironmaster in the mean time was backed training. down from 6 to 1 to 11 to 5. Diablo was well supported, but he tired badly in the final strides, and The Ironmaster won by a length; Terrifier, poorly ridden, second, a head before Diablo.

Philip J. Dwyer is the president of the Brooklyn Jockey Club. He is also a member of the Execu-tive Committee of the Monmouth Park Associaand of the crumbling and decaying Board of Control. At Monmouth Park, as a member of the Executive Committee, Mr. Dwyer betrayed an acute sensitiveness as to criticisms of the racing. His voice was loud for war and for the exclusion of newspaper men who expressed the opinion that ertain races were not honestly run, and that the racing at Monmouth Fark resembled roulette. A seems to have come over Mr. Dwyer's trucculent temper since the meeting of the Brooklyn Jockey Club began. Only a few days ago a certain newspaper writer made the blunt and direct charge that the backers of a certain horse were enly defrauded" by the decision of the judges judges gave the race to another horse. Mr. Dwyer nor the Brooklyn Jockey Club nor the Board of Control has apparently taken any notice of this appalling accusation. Possibly the fact that the charge was made in print by a member of the Assembly, who may be sent to Albany again, and who may be able to stir up a great deal of trouble in regard to the lves Pool act and other racing matters, may have something to do with the apathy of Mr. Dwyer and the Brooklyn Jockey Club and the judges and the Board of Control in this affair.

NEWARK.

Another war has broken out at Newark between the Consolidated Traction Company and the Del-aware, Lackawarna and Western Railroad Com-pany. It is about the passing of the former com-pany's electric cars over the Clifton-ave, crossing of the steam radroad's tracks. At 6 o'clock yesterday morning the attempt was made to run the first rapid transit car over the cross-town line. When the car, which was full of workingmen, arrived at the Clifton-ave, crossing, the motorman saw that

the gates were down. Superintendent Sharp, of the Consolidated Traction Company, arrived in a buggy. He asked the gateman if a train was expected soon, and when he did not get a reply he asked the gateman to raise the gates. His request was not heeded, for the gateman was acting on instructions, heeded, for the gateman was acting on instructions. Superintendent Sharp drove back to "One, two, car, pulled out his watch, counted; "One, two, three," and then said to the motorman, "Go ahead," The motorman turned on the electricity and the car ran forward against the gates, which snapped like pipestems. The gates on the opposite side of the crossing were then raised and the car passed the crossing were then raised and the car passed the crossing, but did not attempt to block the electric cars.
